## Guide to Global Review of Offshore Jurisdictions: NEW PUBLICATION AVAILABLE FROM APPLEBY

There is no doubt that offshore centres will continue to serve the purpose of promoting the efficient deployment of international capital – provided they comply with internationally accepted standards of transparency and cooperation with the countries from which they derive much of their business.

To this end, the offshore world has undergone many developments in recent months addressing the issues raised by organisations such as the G20, and in order to meet the international standards of transparency, as set by the OECD. In order to help you keep up with the rapidly changing environment, Appleby has published a reference guide on the subject, entitled; Guide to Global Review of Offshore Jurisdictions (the “Guide”).

The material presented in the Guide is intended to assist the reader to understand what is taking place at inter-governmental and governmental levels, in the key jurisdictions that deal with the offshore world and in the major offshore centres themselves. As this is a constantly changing scene, the Guide will be regularly updated, ensuring you have access to current and relevant information through this resource.

Within the Guide, Appleby has set out a summary of the current proposals or initiatives within these centres, including the signing of TIEAs, progression from grey to white lists, signing of tax treaties and much more.

The purpose of the Guide is to aid its users in keeping informed of the global review of offshore jurisdictions. Appleby encourages readers to seek expert advice from within their own jurisdiction to be immediately sure of the swift and consistent changes within this area that may apply to them.
