

EMPLOYMENT & IMMIGRATION

BERMUDA

Employment law in Bermuda is a constantly evolving and increasingly regulated area. Our team of specialist lawyers and paralegals work together to provide a seamless service, providing practical and commercial responses to the many difficult and sensitive workplace issues which arise. We work with a range of clients including banks, reinsurers, financial services businesses, companies and directors, as well as their onshore advisors.

The Bermuda Employment and Immigration team has the ability to provide a joined up service for clients, advising on a variety of non-contentious matters and investigations, as well as providing experienced advice and representation in contentious matters and legal disputes before Bermuda's courts and tribunals. We also advise on all aspects of Bermuda immigration law.
